

# CWS (Combined Water System) Overview

Overview of CWS board – 2 reps from each HOA, independent & separate board

CWS responsibilities, HOA responsibilities, home owner responsibilities, King Water, Engineering, State of WA

-  **CWS:** collects water from aquifers and stores it in two concrete storage reservoirs.
-  **HOAs-** (Home Owner Associations – RPHCC - Rocky Point Heights Community Club) responsible for distribution of water from the CWS reservoirs to the homeowner's meter
-  **Home Owners:** responsible from the meter to the property and home structure
-  **King Water/NW Natural Water Services:** manages the water system under the direction of the CWS board (e.g. water treatment, billing, system maintenance & repair)
-  **Engineering:** works with CWS, HOAs, and King Water
